System Requirements for Software

NOTE

Note that the system requirements may be slightly different from those described below depending on the particular computer.

OS	Windows 7 SP1 / Windows 8.1 / Windows 10 (32-bit/64-bit)*
Interface	Equipped with a USB1.1/2.0/3.0 connector
Compatible DAW Application	Cubase 7 series / Cubase 8 series
Remarks Column	These system requirements conform to those of the OS and the DAW applications.

* Operation is not guaranteed in Windows XP mode on Windows 7 or in the Boot Camp partition on Mac OS.

For users of Windows 10

Starting the application:

Click “All apps” in the Start menu to see the full list of applications. You can start the application by clicking the icon.

Uninstalling the application:

1. Click “Settings” in the Start menu to call up the Settings window. In the Settings window, click “System” > “Apps and features.”
2. Click the “Uninstall” button for the application.

For users of Windows 8

Starting the application:

Once the application is successfully installed, an icon of the application will be in your Windows 8 Start screen. You can start the application by clicking the icon.

NOTE

If the icon is not listed, right-click an empty area of the Start screen and select “All apps.” Then select the application icon from the application list.

Uninstalling the application:

1. Right-click the application you wish to remove in the Windows 8 Start screen. If it’s not listed, right click an empty area of the screen and select “All apps.”
2. A check will be placed on the application you selected. Select the “Uninstall” option that appears at the bottom of the screen.
